

---

According to the Hungarian Government Decree 469/2021. (VIII. 6.), from 9 August 2021, Hungarian dental practices may only accept patients protected against coronavirus.

This means that only patients who are fully vaccinated, or have previously been infected with Covid-19 (certified) in the last 6 months, may visit our dental practice.

If you do not have an immunity certificate, you may only attend the clinic if you present the following:

- Negative PCR test within 48 hours of the dental treatment, or
- Negative rapid antigen test taken on the day of the dental treatment.

To protect you and our staff's health, we follow strict Covid-19 protocol at our dental practice and maintain appropriate hygiene conditions at all times.

We kindly ask you to refrain from visiting the practice if you are feeling unwell, tired, are short of breath and/or have a fever, cough or runny nose. If you experience any of these symptoms, we kindly ask you to stay at home and reschedule your appointment. We kindly remind you that the use of face coverings (masks) covering your mouth and nose is required during the entirety of your visit.
